MEMORANDUM FOR THE RECORD

SUBJECT: Testimony of Patrick Gray before the Intelligence Subcommittee
of House Armed Services Committee on 31 May 1973

1. Met with Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, who told me that in this morning's testimony before the Subcommittee Patrick Gray had flatly contradicted General Walters' testimony with regard to General Walters' statements that he had advised Gray that he was acting under White House instructions. Nedzi said that Gray categorically denied this and said there was no mention of White House direction in any of the meetings he held with General Walters. Gray apparently testified that he was so angry when he saw the press releases concerning General Walters' affidavit that he sat down and prepared a rebuttal to the statements. Nedzi also indicated that there appeared to be some personal bitterness in Gray's testimony.
